EXPERIENCE

Daya Consultancy Services Pvt. Ltd.

07/2025 – 03/2026

Software Developer

- Developed responsive web interfaces using **React.js** and **Tailwind CSS** to deliver smooth and user-friendly experiences.
- Contributed to backend service development by creating **REST APIs** with **Node.js** and **Express.js**, enabling reliable data exchange between frontend and server.
- Collaborated with a small development team to improve application structure, participated in code evaluations, and followed **Agile methodologies** to maintain clean and scalable code.

EDUCATION

Indira Gandhi Institute of Technology, Sarang

09/2023 – 06/2025

Master of Computer Applications - 8.73/10

PROJECTS

Client Management System ✉

07/2025 – 10/2025

- Engineered a **full-stack client management platform** using **React.js**, **Node.js**, **Express.js**, **MongoDB**, and **Tailwind CSS**, optimizing customer data management and communication.
- Enabled **bulk and personalized messaging** through **Nodemailer** for both **email and WhatsApp**, reducing manual workload by **60%**.
- Scheduled automated emails using **Cron Jobs**, ensuring timely communication and improved client response.
- Built a **secure login system** featuring **OTP-based verification** and **JWT-based session handling**, strengthening access control.
- Enhanced backend efficiency by **refactoring API calls** and adding **pagination**, cutting page load time by **40%** and preventing crashes.

Employee Management & Attendance System

12/2024 – 06/2025

- Developed a **Java-based web application** using Core Java, Servlets, JSP, and JDBC following the **MVC architecture** for managing employee data.
- Integrated **MySQL database using JDBC** to perform efficient **CRUD operations** with prepared statements.
- Designed dynamic and responsive user interfaces using **HTML**, **CSS**, and **JavaScript**, enabling smooth interaction and data handling.
- Deployed the application on **Apache Tomcat**, applying proper exception handling, input validation, and optimized SQL queries for stability and performance.

SKILLS

- Languages: Core Java, JavaScript
- Frontend: React.js, Redux
- Backend: Node.js, Express.js, JDBC, Servlet, JSP
- Databases: MySQL, MongoDB
- DevOps: Git, GitHub, AWS EC2, AWS S3.

CERTIFICATES

- The Complete 2024 Web Development Bootcamp – Udemy. ✉

ACHIEVEMENTS

- Ranked 85 (AOR) in OJEE 2023
- Solved 390+ data structure and algorithm problems on LeetCode.
